

TROPITONE®

CURVE TABLES

ASSEMBLY INSTRUCTIONS

Congratulations on the purchase of your Tropitone® Curve Table. Read through all steps before fastening components together.

CAUTION!

Assemble furniture on a soft surface (i.e.: carpet, cardboard) to prevent scratches.

Do not assemble with electrical tools, including battery powered ones.

Do not try to lift or flip furniture components with only one person. Components may be heavy and awkward to handle, and may result in injury to persons or damage to property if not lifted properly.

- ✓ Check that all hardware and components are provided before you start assembly.

WARNING! ELECTRICAL SAFETY INSTRUCTIONS

WARNING! When using outdoors, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and personal injury.

This product has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will only fit in a polarized outlet, and will only plug in one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a licensed electrician. Never try to defeat this feature.

Never use an extension cord that does not allow the polarized plug to insert fully in to the outlet. If an extension cord must be used, it must be rated for outdoor use, which must have one of the following cord types: SW, SW-A, SOW, SOW-A, STW, STW-A, STOW, STOW-A, SJW, SJW-A, SJOW, SJOW-A, SJTW, SJTW-A, SJTOW, OR SJTOW-A

Ground Fault Circuit Interruption (GFCI) protection is required on the circuit or outlet to be used for any wet location, including all outdoor locations. Receptacles are available which have built in GFCI protection and are acceptable to be used for this measure of safety.

This product does not have an on/off switch. A separate device can be purchased and installed which will control your electrical outlet.

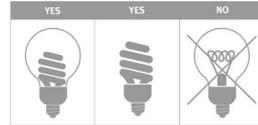

WARNING! ELECTRICAL SAFETY INSTRUCTIONS (CONTINUED)

This product has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will only fit in a polarized outlet, and will only plug in one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a licensed electrician. Never try to defeat this feature.

! DANGER! Risk of electric shock. Be sure that the cord is not plugged in to an outlet before proceeding with the replacement of the bulb.

! Use only a compact fluorescent lamp (CFL) of 15 W maximum.

! Do not perforate or modify the product.

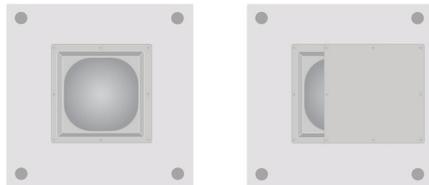

LIGHTED TABLE: ASSEMBLY STEPS

1. Unscrew 2 thumbscrews by hand to remove socket.
2. Install CFL bulb in socket and place into product.
3. Install 2 thumbscrews by hand.

WEIGHTED TABLE: WEIGHT REPLACEMENT

1. To replace sand weight, remove screws from panel.
2. Place sand weight in recessed area.
3. Replace panel and install screws.
