Matrix KD Table Assembly Instructions

Congratulations on the purchase of your Tropitone® Matrix KD Table. Read through all steps before fastening components together.

CAUTION: Do not try to lift or flip furniture components with only one person. Components may be heavy and awkward to handle and may result in injury to persons or damage to property if not lifted properly. Once the Table Top has been installed, use 2 persons to turn the assembled table over to an upright position.

✓Check that all items listed in the Parts List are in your carton.

Prepare a smooth, non-scratch work surface (shipping carton, a tarp or pools towels can be used).

Coffee, Chat, Dining Height Base Assembly

Place Table Top Frame upside down on the prepared work surface. Mounting Post should be facing upwards.

Place one leg onto a corner mounting post aligning attachment holes in the leg to the holes in the mounting post.

Attach leg with two bolts and two washers and fully tighten. Repeat for the remaining three legs.

Check 8 bolts to ensure that all are fully tightened.

Counter, Bar Height Base Assembly

Place one leg onto the Cross Brace at mounting bracket.

Loosely attach with two bolts and two washers. Do not fully tighten at this point. Repeat process until all four legs are loosely attached to the Cross Brace.

Place Table Top Frame upside down on the prepared work surface. Mounting post should be facing upwards.

With the Cross Brace attached, place the four legs onto the four corner mounting posts of the Table Top Frame.

Loosely attach each leg with two bolts and two washers. Do not fully tighten until all four legs are attached.

Fully tighten all bolts. Check 16 bolts to ensure that all are fully tightened.

Step 1

CAUTION: It is the assembler's and user's responsibility to confirm and install proper length screws to prevent damage to the Top.

Place one screw into the Table Base. Measure the length of the screw threads to insure they stick up $3/8'' - 1/2''$.

- X** *If the screw sticks up more than $1/2''$, do NOT proceed. The screws are too long and will stick up through the Top surface.*
- X** *If the screw sticks up less than $3/8''$, do NOT proceed. The screws are too short and will not properly secure the Top.*

Step 2

Prepare a smooth, non-scratch work surface (shipping container, a tarp or pool towels can be used). With two persons, place the Table Top upside down on the prepared work surface. With two persons, gently place the Base upside down onto the Top.

Step 3

Tops with Umbrella Hole

Center the Base on the underside of the Top; sight down through the umbrella support ring in the Base and align it to the Top.

- **Square, Rectangular** Tops: Align the Base to the corners of the Top.
- **Round** Tops: Continue to step 4.

Tops without Umbrella Hole

Center the Base on the underside of the Top.

- **Square, Rectangular** Tops: Align the Base to the corners of the Top. Measure equal distances at (4) places from the corner of the Top to the leg mount.
- **Round** Tops: Measure equal distances at (4) places from the edge of the Top to the leg mount.

Step 4

Attach the Base to the Top using the supplied screws at (8), (12) or (16) places.

NOTE: After assembling one Table, turn the Table upright. Confirm the screws have not penetrated up through the top surface.

With two persons, lift the table upright while holding the Base near the (4) outermost Base to Top connection points.

Check that all the screws are firmly tightened at (8), (12) or (16) places to retain the Top.
